

Tustin Teens in Action and Parents,

Welcome to the City of Tustin's Teens in Action program. It is great to have you as a volunteer in this youth program. The staff members are eager to work with you and are hoping to give you a unique volunteer experience this year. The Tustin Teens in Action program will be a valuable resource for our department; they help us prepare and implement activities, as well as provide companionship for the teens.

The Tustin Teens in Action program is designed to develop benefits such as interacting socially, managing time wisely and creating personal goals. You will gain practical work experience, including leadership and organizational skills in the field of recreation while enhancing your problem solving and decision making skills. We will also help you build job references, which may be used when seeking future employment. You will obtain community service hours for school or other civic organizations. The program provides multiple opportunities for participants to give back to their community, while encouraging skills relevant to present and future successes. We are excited that you are becoming a part of this great experience. We are confident this experience will be rewarding and give you a sense of accomplishment.

Once again, welcome! We are excited that you are a part of this Community Tustin Teens in Action team! We are confident this experience will be rewarding and give you a sense of accomplishment.

Carrie Woodward
