

# COMMUNITY WORKSHOP

## RED HILL CORRIDOR SPECIFIC PLAN

JOIN US IN AN OPPORTUNITY TO  
COLLABORATE WITH YOUR COMMUNITY!

The City of Tustin is beginning a community-based planning process to create the Red Hill Corridor Specific Plan. The Specific Plan will provide long-term guidance for positive growth and change to enhance the quality of life in Tustin. Your participation is important to the success of this process!

You are invited to the first in a series of community workshops to help develop a long-term vision for the Red Hill Avenue corridor. The City will be considering future potential land use, mobility, urban design, and infrastructure improvements along the corridor to support the development of a highly-vitalized, sustainable environment that will become a focal point for community activity. At this Workshop you will learn about the planning process and participate in active discussion about the area's challenges and opportunities. Join us to share your ideas and visions for the future of Red Hill Avenue in Tustin!

**For more information, please visit the city's website at [www.tustinca.org](http://www.tustinca.org)**
