

Incident Information: 714-426-2444

Hours: 7:00 a.m. - 7:00 p.m.

Email: NavyHangarRecovery@tustinca.org

Website: <https://tustinca.org>

Future updates from this incident will be released daily and will include the latest information based on operations and recovery progress.

ALL UPDATED INCIDENT INFORMATION IN BLUE.

NAVY HANGAR SITE OPERATIONAL UPDATE:

DOOR DECONSTRUCTION

- The process is estimated to take 2 - 2.5 weeks to complete.
- The process began on December 5th with the moving of heavy equipment and other materials to the area after the application of the Tackifier (Gorilla Snot).
- The first hangar door was deconstructed on Friday, December 8, 2023.
- Deconstruction of the remaining hangar door was completed December 11th.
- The removal of the pillboxes (external structures) connected at the top of the concrete pillars began December 12. **Three (3) of the four (4) pillboxes were removed this weekend with the final pillbox scheduled for removal Monday, December 18th.**
 - Noise will be mitigated through the entire process.
 - Ongoing air monitoring surveillance will continue until the hangar site has been completely remediated by the U.S. Navy.

DEBRIS CLEARANCE UPDATE:

RESIDENTIAL

- December 16, 2023
Certified Asbestos Consultants (CACs) and Asbestos Mitigation teams completed a total of **52** residential inspections and mitigations and **52** inspections. To date, a total of **1,106** reports have been reported to the portal, of which **1089** have been inspected and **921** have been mitigated and cleared.

Certified Asbestos Consultants (CACs) and Asbestos Mitigation teams completed a total of **24** residential inspections and mitigations and **24** inspections. To date, a total of **1,114**

reports have been reported to the portal, of which **1,113** have been inspected and **945** have been mitigated and cleared.

SCHOOLS

- **All 29** Tustin Unified School District (TUSD) schools have been inspected, mitigated, and cleared. This includes Heritage Elementary and Legacy Magnet Academy. Both Heritage and Legacy will welcome students and staff back for on-campus instruction beginning **Tuesday, December 19, and Wednesday, December 20, respectively.**

PUBLIC RIGHT OF WAYS

- Certified Asbestos Consultants (CACs) and Asbestos Mitigation teams have completed **100%** of the public right of ways.
- A 1 ¼ mile stretch of the railroad tracks beginning at Redhill and Edinger was fully mitigated Saturday, December 9th by a crew of more than 100.

PARKS

Veterans Sports Park and Legacy Park have reopened. **All Tustin parks are open.**

HEALTH & SAFETY UPDATE

County of Orange Health Officer & Chief of Public Health Services Regina ChinsioKwong, in a letter this week to Tustin Mayor Austin Lumbar and his City Council colleagues, informed City officials that air monitoring of the Navy Hangar Fire site in Tustin by multiple health and environmental regulators shows **no concern regarding airborne asbestos**. Dr. ChinsioKwong's letter also states that air monitoring of **metals collected to date were under the level of concern or were not detected**. Experts from the IMT's Environmental Unit have determined that **testing indoor spaces is not necessary**, thanks to reassuring test results from nearby facilities.

View the correspondence in its entirety here:

<https://www.tustinca.org/DocumentCenter/View/11437/Letter-to-City-of-Tustin-Hanger-Incident-12132023>

Dr. ChinsioKwong also provided updated **Health & Safety Tips**, along with an **Incident Phase Community Guide** for the public.

The Health & Safety Tips address concerns such as **landscaping, heating, ventilation, air conditioning as well as cleaning methods for homes/buildings**. **View the Health & Safety Tips** here:

<https://www.tustinca.org/DocumentCenter/View/11436/OCHCA-Health-and-Safety-Tips>

GENERAL INFORMATION:

RESIDENTIAL UNVERIFIED DEBRIS INVESTIGATION AND MITIGATION

Inspection and mitigation teams are actively working through residential neighborhoods. If your residence is unattended when they arrive, the team will leave a door flyer with a QR code and instructions on how to sign up for an appointment. If more information is needed, the community may call **714-426-2444**, from **7:00 a.m. to 7:00 p.m.**

SAMPLING AND REMEDIATION PROCESS

Below is a step-by-step process for how our teams will respond to reported debris:

1. Your report will be assigned to a Certified Asbestos Consultant (CAC) schedule an onsite inspection of your residence or business.
2. *The CAC or Certified Site Surveillance Technician (CSST) will visit your home to collect a sample of the debris to be sent off-site for testing. You will be contacted to confirm whether the debris is Asbestos Containing Material (ACM).
3. *If the debris tests positive for asbestos, an ACM Remediation Team will be assigned to return to your home to clean-up the debris. Upon completion of the clean-up, a separate team will return to your residence or business to confirm a successful remediation of the area.

***PLEASE NOTE THAT STEPS 2 AND 3 MAY BE COMPLETED SIMULTANEOUSLY.**

4. You will be asked by the CAC or CSST to sign a release of liability. This form solely provides consent for the teams to access your private property to investigate and remediate any suspected material. Please refer to the "*Private Property Consent and Waiver Process*" document available at the following link: <https://www.tustinca.org/1484/Private-Property-Consent-and-Waiver-Proc>.

CALL CENTER & WEBSITE

The City of Tustin's website is regularly updated with the most recent information regarding the Navy Hangar Fire. We encourage the community to visit <https://www.tustinca.org> first as many can be answered via the website. If more information is needed, the community may call **714-426-2444**, from **7:00 a.m. to 7:00 p.m.**
