

Creative Signals

Traffic Signal Cabinet Public Art Program

Policies and Procedures

- The opportunity to donate a piece of traffic signal cabinet artwork will be open to community businesses, non-profit organizations, and individuals.
- A map detailing the location of all of the available traffic signal cabinets will be available to potential donors.
- A list of pre-approved wrap vendors that have been verified as able to adhere to the program policies and specifications will be made available to potential donor.
- The donor must work with one of the pre-approved wrap vendors to install the wrap.
- For the wrap design, the donor may work with one of the pre-approved wrap vendors, or a graphic designer of the sponsor's choice.
- Before installation, donors shall submit an application to the City of Tustin, Parks and Recreation Department for review by the Public Art Commission.
- Along with the application the donor shall include a copy of the proposed design and the preferred traffic signal cabinet location.
- No application fee will be charged.
- If the Public Art Commission approves the wrap design, the proposal will be forwarded to the City Council for approval.
- After approval by City Council, the donor will be required to sign a project agreement with the City of Tustin.
- Coordination of the installation timing will be between the Parks and Recreation Department and the donor. It is the donor's responsibility to coordinate with the wrap vendor.
- Graffiti will be removed by the City of Tustin's contractor after it has been reported to the Tustin Police Department.
- If the wrap is damaged but deemed repairable by the City of Tustin, the option to repair it will be given to the donor. Should the donor refuse to repair the wrap, it will be removed by the City of Tustin.
- The wrap will also be removed by the City of Tustin if it is:

- Damaged beyond repair
 - Over five years old
 - Significantly faded
- Regular maintenance of the traffic signal cabinet will continue to be the responsibility of the City.

Specifications

- Wrap material should be a minimum 3 mm thick vinyl product in a matte finish from 3M or Avery.
- A graffiti-resistant laminate is required to be installed over the vinyl wrap.
- Artwork must cover all four sides of the cabinet.
- The wrap must be neatly trimmed around any locks, vents, hinges and handles so as not to adversely affect the cabinet or the equipment inside.
- Logo of sponsor should be no more than 20% of the overall design and must blend with the artwork.
- There are no limitations based on color.
